# **EU-Cities-Mission 2030**

Significance and opportunities for Klagenfurt and Carinthia

# Klagenfurt on Lake Wörthersee On the way to Climate-neutrality

### Dr. Wolfgang Hafner

Department for climate- and environmental protection,

*Municipality of the Provincial Capital Klagenfurt on Lake Wörthersee* 

### 29.03.2023

28 April 2022

### MEET THE CITIES

#### OBJECTIVES OF THE EU CITIES MISSION

100 climate-neutral and smart cities by 2030

Ensure that these cities act as experimentation and innovation hubs to put all European cities in a position to become climate-neutral by 2050

#### SELECTED CITIES 100 EU cities

12 cities from countries associated to Horizon Europe, the EU's research and innovation programme (2021-2027).

Member State

large cities less prepared cities

Frontrunners and

- Tailor-made advice and assistance from the Mission Platform (managed by the NetZeroCities consortium)
- Unlocking additional funding and financing opportunities through a Mission label
- Research & innovation funding opportunities for cities to join large innovation actions, pilot projects and demonstrations (total budget from Horizon Europe for 2021-2023 is €360 million)
- Support through a national coordination network
- Networking opportunities, learning and exchange of experiences among cities
- Support with involving citizens in decision-making
- High visibility raised political profile and attractiveness for investment and skilled workers

nd environmental protection

City Senate resolution on 21.12.2021Municipal council resolution on 30.12.2021

### Surcharge on 28.04.2022

### **Smart City Strategy Version 6.2**

#### Department climate- und environmental protection

### Vision

Smart City Klagenfurt on Lake Wörthersee is an emission-neutral, energy-efficient and resource-saving living space with a high urban quality of life and responsible citizens, which is very well connected in the Alps-Adriatic region.

Climate protection goals Klagenfurt	
-70% CO <sub>2</sub> bis 2030	- 83%
-90% CO <sub>2</sub> bis 2040	

- 1 core team (Stadt und STW)
- *9 fields of action*
- *9* working groups
- **58 42** *experts*
- **236 184** *measures*

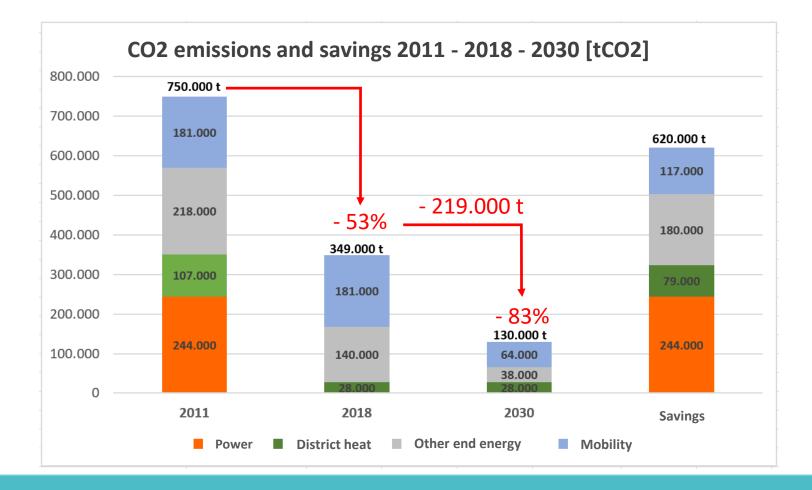

At the same time, a good quality of life for the population and future generations should be further improved and sustainably secured.

*City Senate resolution on 20.04.2021Municipal council resolution on 25.05.2021* 

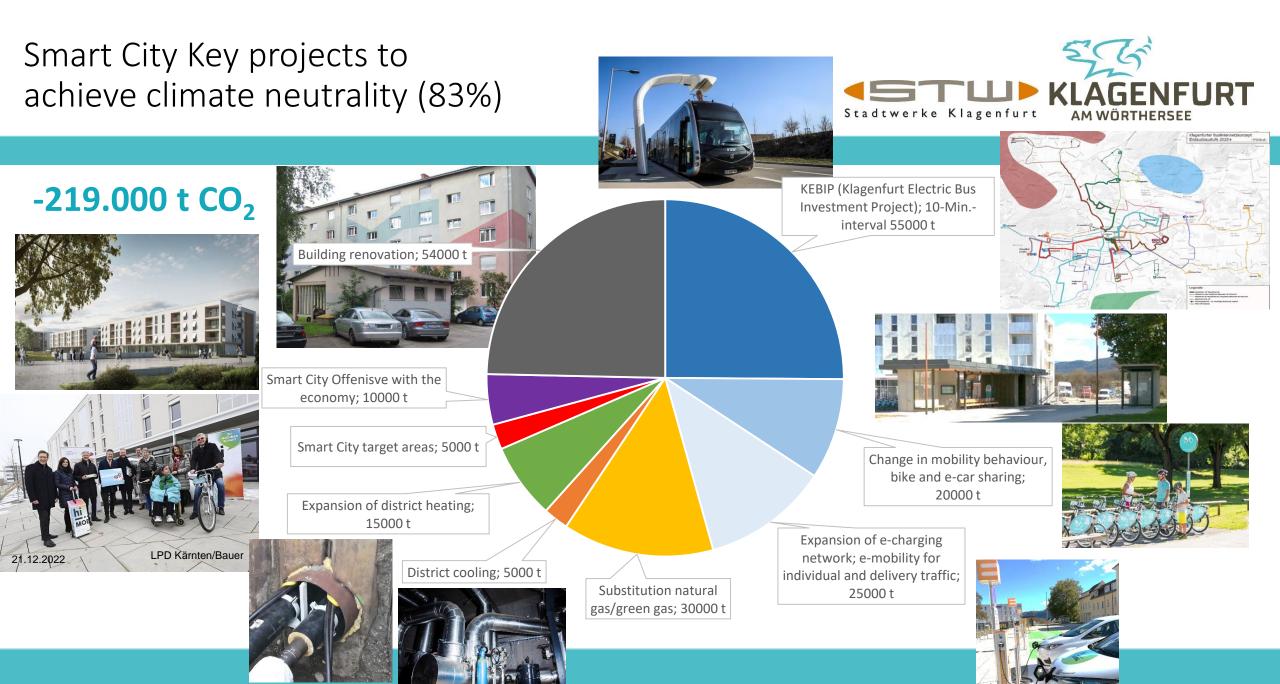

## Pathway to climate neutrality 2030

#### Department climate- und environmental protection

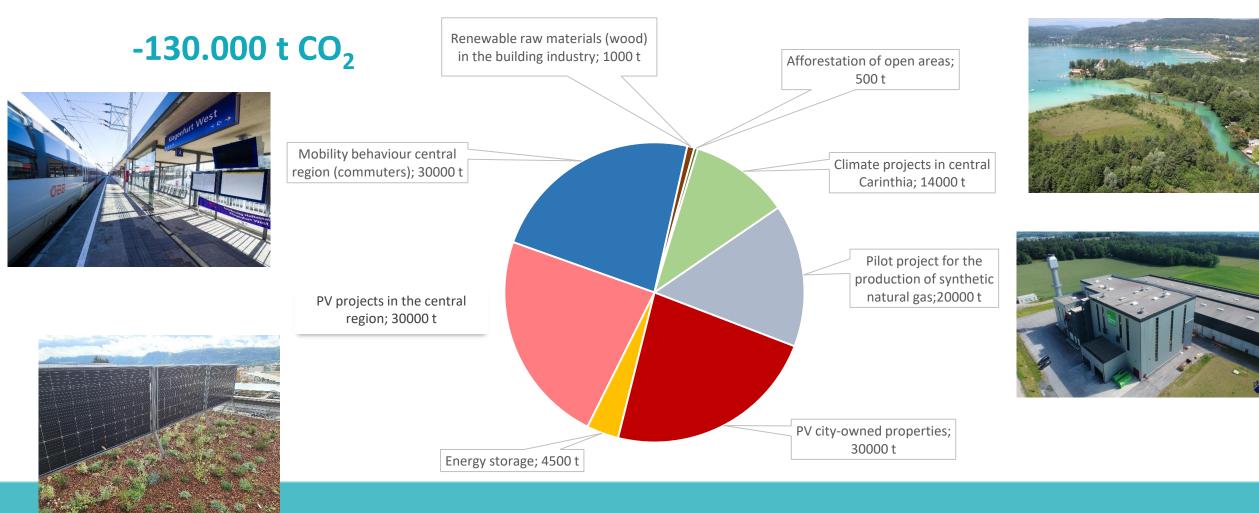

Calculations according to the COM method (Covenant of Mayors)

# Compensation measures to achieve climate neutrality (17%)

#### Department climate- und environmental protection

# Accompanying measures

Department climate- und environmental protection

- Creation of green spaces (roof and façade greening, unsealing, sponge city, trees....)
- **Participation** (e.g. citizen participation, citizens' advisory council....)
- **Digitalisation** (broadband expansion, digital twin, smart public lighting....)
- **Social innovations** (e.g. community nursing, social space coordination...)

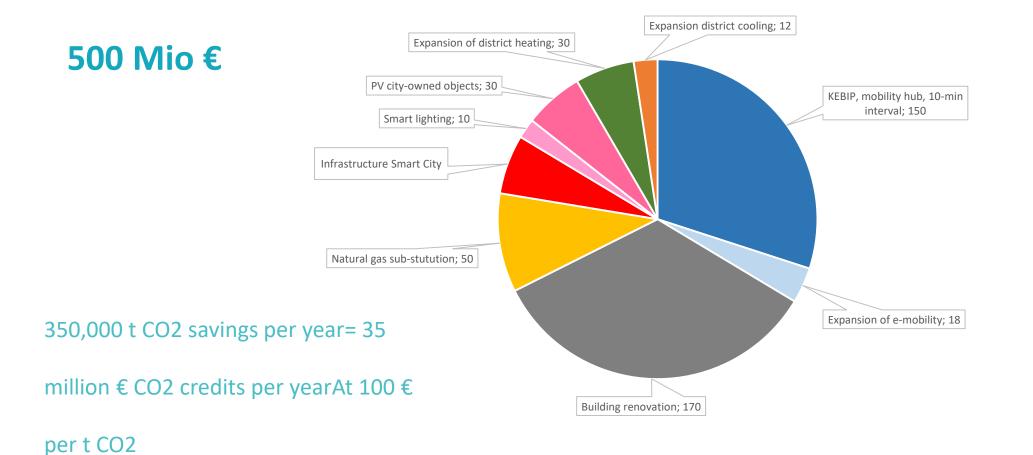

## Investments (in € million)

#### Department climate- und environmental protection

05.04.2023

# Achievable CO2 savings by 2030

Department climate- und environmental protection

### For the period 2021 - 2030:

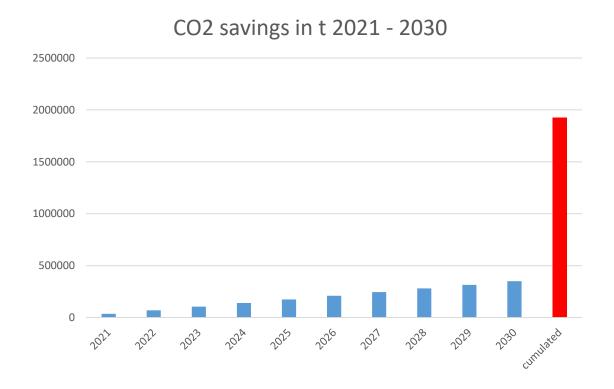

According to the Federal Audit Office 2021

Federal penalty payment: € 9,214 million Penalty payment Land: € 117 million

Basis: 100 € / t CO2

350,000 t CO2 savings per year = 35 million € CO2 credits per year

Cumulated 2021 -2030 1.925 million t CO2 savings = 192 million €

# Significance and opportunities of the EU Cities Mission

#### Department climate- und environmental protection

- Pioneering role in EU and AT
- Access to special funding programmes (national and EU), not only for Klagenfurt but also for cooperation partners and projects outside of Klagenfurt (compensation !)
- Smart City Lab: competence building for project development and implementation, cadre training for funding management and climate protection projects
- Cooperation with companies and science (also outside Klagenfurt)
- Living Lab for innovative climate-neutral products and services
- Official monitoring for achieved CO2 savings and SDGs
- Achievement of climate goals for Carinthia
- Synergies with projects of the province (e.g. Campus 2050), logistics centre Fürnitz
- Increased participation of citizens
- Increased cooperation with the federal government, the province and the municipalities in the central region of Carinthia
- **Positioning** as a **climate-neutral region** with international appeal and attraction

## Milestones of the EU Cities Mission

Department climate- und environmental protection

- 28.04.2022, award of contract for participation in the EU Cities Mission
- 01.11.2022, Austrian pioneer city, contract with BMK for competence development (€ 2 million over 5 years)
- Establishment of Smart City Lab (Bahnhofstraße 19), opening May 2023
- 28.03.2023 City Senate resolution: Climate Neutrality Commitment to the EU Cities Mission
- 30.03.2023, submission (City European Commission) with investment plan and action plan for climate neutrality 2030 Climate City
  Contract (= Smart City Strategy 7.0)
- Implementation of projects from the Smart City Strategy

(public transport 10-minute intervals, PV, e-mobility, HiHarbach with social space coordination, community nursing, climate-friendly HGP, master plan for walking, master plan for cycling, Smart City target areas, urban development contracts, participation, GreensChoolEnergy, E3@SCHOOL, phasing out oil and gas firing, ......) currently 12 new funding applications

 Key project KEBIP 2.0 (Klagenfurt Electric Bus Investment Project): Total costs 144 million incl. infrastructure, commissioning at the end of 2025
 EBIN (€44 million committed) and EIB (€72 million loan under negotiation), further subsidies possible, first tender for e-buses underway, talks with federal and provincial governments on financing.

The answer to climate change lies in the Smart City Strategy Klagenfurt.

**Smart City Klagenfurt** sustainably secures the **quality of life** for our children, grandchildren and great-grandchildren.

The EU's Climate Neutrality 2030 mission is achievable, and much of it can be extended to Carinthia.

The key project KEBIP makes climate neutrality visible for the first time.
